

PRAVEEN KUMAR

F U L L S T A C K D E V E L O P E R

PROFILE

Motivated and detail-oriented entry-level professional with a strong interest in software development and web technologies.

Known for a disciplined work ethic, continuous learning mindset, and the ability to adapt quickly to new environments. Seeking an opportunity to grow and contribute effectively in a professional organization.

EXPERIENCE :

PROJECT EXPERIENCE :

Frontend Development :

- Created frontend-only portfolio projects using React.
- Built simple JavaScript projects for task-based functionality.
- Developed websites such as a house rental website and a Tamil Nadu culture-based website with focus on layout and design.
- Showcased projects through personal portfolio websites.

Backend Development:

- Implemented secure login and authentication systems using both Django REST Framework (DRF) and pure Django.
- Developed custom REST APIs using DRF to handle application logic and data flow.
- Focused on authentication, authorization, and API security best practices.
- Tested APIs to ensure proper request handling and response accuracy.

PROJECTS :

User Authentication System (Django) :

- Built a secure login and registration system using pure Django, HTML, CSS, and MySQL.
- Implemented user authentication features including signup, login, logout, and session handling.
- Ensured basic security practices for user data management.

JavaScript Task Collection :

- Developed a collection of 15+ simple JavaScript tasks to practice core concepts such as DOM manipulation and user interactions.
- Created small interactive features focused on improving frontend logic and functionality.

Python Mini Projects

- Created a collection of Python-based mini projects to strengthen problem-solving and backend logic.
- Focused on writing clean and readable code for different use cases.

React Portfolio Website

- Used external libraries to enhance UI, animations, and overall user experience.
- Showcased frontend projects and structured components effectively.
